

Intro to AJAX

AJAX

- A • ASYNCHRONOUS
- J • JAVASCRIPT
- A • AND
- X • XML

AJAJ

- A • ASYNCHRONOUS
- J • JAVASCRIPT
- A • AND
- J • JSON

JSON

- J • Java
- s • Script
- o • Object
- N • Notation

XMLHttpRequest(XHR)

- The “original” way of sending request via JS.
- Does not support promises, so.. lots of callbacks!
- Clunky syntax, difficult to remember.

Fetch API

- The “newer” way of making request via JS.
- Support promises!
- Not supported in Internet Explorer :(
